About Harmonic

Headquartered in Camden, with additional offices in Manchester and Boston USA, Harmonic Group is composed of Harmonic Finance & Harmonic Operations.

We provide Recruitment & Executive Search services to two core areas: Start-Up and Scale-Up businesses. The common thread is non-corporate work environments, where our customers value cultural fit and values as much as they do the candidate's professional experience.

Placing purpose above profit, Harmonic think and act differently to other Search and Recruitment companies, and have our values at the heart of what we do. We gained our B Corp certification in August 2022 – making us the world's first B Corp in our space!

Our Values

Our three company values (Knowledge, Respect & Community) underpin everything we do; we embed them into our service offering and all of our daily interactions in the business.

Knowledge

At Harmonic, we believe that ‘brains beats brash’ every time. Colleagues are encouraged to impress you with their specialist knowledge, not with how much business-jargon they can drop into a sentence. Our company structure and job titles reflect this commitment: we’re analysts and community builders first, business development professionals second. With each of our colleagues fully-committed to producing the most detailed and high-quality industry analysis for their sector.

Respect

Every customer and colleague is equal and receives the same care and attention. At Harmonic, we act, communicate and think with this front of mind, and – as with all of our company values – display of respect directly determines promotion prospects and annual compensation. We don’t do meaningless buzzwords.

Community

We measure our success as a business by our social impact, not just our revenue growth. And have consistently committed 5% of our net profits to charities and social causes which are important to us in the UK and USA. This covers ongoing commitment to supporting mental health wellbeing organisations, children’s literacy, race and gender equality and LGBTQ+ organisations. We are firm believers that small gestures of kindness can make a huge difference and reject ‘culture war’ dialogue and social division.

Our Growth

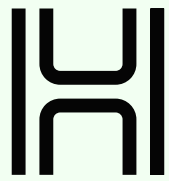

Partnerships & Events

Over the past few years we have partnered with key entrepreneurial networks and are regular attendees at leading industry events. We have been committed since the very beginning to hosting only events and workshops which add real value to our business community. Our partnerships with Tech Nation, Helm, YPO and Forbes have attracted Entrepreneurs, Investors and Executives from \$1 billion Unicorns alongside Pre-Seed wizards who are ready to share their knowledge and wisdom.

Harmonic recently partnered with Tech Nation to commission the most extensive research report to date into inclusion and diversity within the UK's top 2,200 fastest growing tech start-ups. We are committed to encouraging diversity in the shortlists that we present.

Social Impact & Wellness

Certified

Corporation™

In August 2022 Harmonic proudly became a Certified B Corporation, making us the first Finance & Operations recruitment and executive search firm globally to attain the certification.

B Corp is a movement of companies that have gone through a rigorous vetting process to verify that they meet the highest standards of social and environmental criteria and balance purpose alongside profit. Our score of 96.5 also makes us the 2nd highest ranked agency in the UK!

We take mental health seriously, and for the past 3 years Harmonic have been the lead sponsor of Getahead Festival (a 24-hour mental wellbeing festival held in London), giving all colleagues the day off to attend.

At Harmonic, we consistently donate 5% of profits to charities and social impact causes. We also strive for carbon neutrality, and so for every placement that we do we donate to the Woodland Trust to offset our carbon footprint and reduce our environmental impact.

With our colleagues front of mind, Harmonic partner with The Circle Line (an employee mental health platform) to give the team 24/7 access to online therapy and coaching.

Harmonic are an equal opportunities employer and encourage diversity within our business. In keeping with this we partner with 10,000 Black Interns, who are working to transform the prospects of young Black people in the UK.

CHOOSE LOVE

Roles We Fill

Here are some of the roles we fill. We have a lot of experience in finding talented individuals which help companies grow and flourish, rapidly.

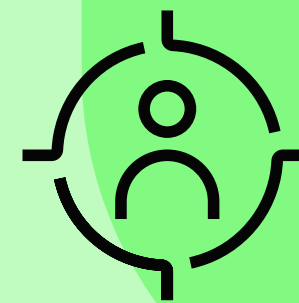

- Managing Director
- COO / Chief Operating Officer
- Client Services / Account Management
- Strategy
- People and Human Resources
- Legal / General Counsel
- Revenue Operations
- Operations Manager
- Chief Marketing Officer / CMO
- Neighbouring Rights / Royalties
- Sales Support
- Executive Assistant

Services We Offer

We have deep specialist sector knowledge and have a range of services to accommodate our customers. We maintain a unique community of candidates who are seeking employers that offer more than just a salary and a blue-chip brand. As a result Harmonic can offer our customers a refreshing contrast to the shortlists they may receive via more corporate Search and Recruitment companies.

We understand what motivates our candidates and their personal values, leading to high retention rates and returning clients. Through a well-honed process, we get to know our clients thoroughly before making introductions and carefully select the right candidates for each role, making everyone a winner.

Our Process

We find the outstanding talent for your team, and our process has both client and candidate needs at the heart of it.

Following our 8 step process, we will deliver you a detailed search of your entire marketplace in order to identify and attract the 'A*' grade' talent capable of transforming businesses, rather than simply filling roles.

Throughout the process we provide clients with: fortnightly updates, detailed data reports, feedback on their employer brand, diversity and inclusion strategy and data, and a detailed summary on each candidate we feel is suitable. This will include not just their professional expertise and credentials, but also their motivations and personal values.

Testimonials

"Harmonic were instrumental in helping us fill our role at FingerprintJS. They knew exactly who to look for while paying special attention to our comp- any culture and requirements as a technical SaaS business. It was a pleasure working with Harmonic and we look forward to continuing our relationship as our team grows."

Joe Caiello
Head of Business Operations

"I have worked with many search professionals as both client and candidate and whilst many have been excellent, Charlie's ability to foster strong working partnerships puts him head and shoulders above his industry peers, in my opinion."

Katie Brownridge
Chief Operating Officer
WorldFirst

"Working with Harmonic was a true pleasure. After one conversation in articulating what we were looking for, he syncretized all that was said and started sending great talent that met our qualification needs. Super communicative & thorough as well!"

Alyson Basso
Director of People Operations
Dig

"Working with Harmonic we've found a true specialist, consultative, honest and trustworthy partnership. Not only have we had valuable insight into the market and introductions to top talent that we would not be able to source directly, we've also saved a lot of time by working with people who just "get it" and can support us throughout the process. They've been a true extension to our team internally, we can't thank them enough."

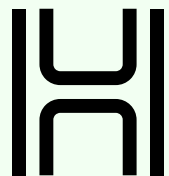

Carrie Johnson
Head of Talent
HelloFresh

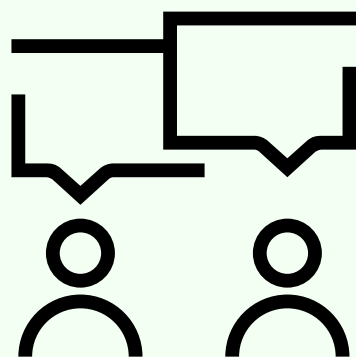

"Having retained Harmonic to recruit, they acted with great integrity throughout the process- I felt at all times that they were really doing the right thing by our business. Would highly recommend."
